Subject: CB/948/DA - Proposed Withdrawal of the *.CAR File

Colleague,

At the January UKLink Committee it was highlighted that the *.CAR file – which is showing as a live file format on the xtranet site – has not been issued for a considerable period.

This file was previously issued to Users following the AQ review where Emergency Contact details were required due to the revised Annual Quantity. This file has not been issued since 1997, and therefore we propose to withdraw this file format.

It is proposed that this change is an administration change only – i.e. as a Class 1 UKLink Modification - and the file formats withdrawn without a formal notice period. User representations are invited upon this matter to the UKLink Manual box account uklink@xoserve.com by 26th February 2010.
