

COR1360 NTS Exit Reform (Mod 0195AV)

UK-Link Committee

9th July 2009

Screen Pack – Change Category Examples'

Contents

1.	Label Change	3
2.	Dummy Data Updated	9
3.	New Screens	11
4.	Enhanced Explanation	13
5.	Change to Screen Structure	15

1. Label Change - Example

Reference Screen Pack 5.1, 5.1.1 & 5.1.2

The heading 'Normal Application Window' as contained within the Application Window Type dropdown selectbox has been amended to 'Enduring Application Window'.

'Old Screen Shots'

3. New Screens – Examples

Reference Screen Pack 3.13

Additional screens have been added for the Ad Hoc Enduring Increase Application and Ad Hoc Decrease Application processes.

These screens were introduced during the analysis phase approval as it was felt that the 'User Preferences' functionality should be also available for the Ad Hoc processes. The new screens are identical in format to the previously shown screens for 'Enduring Annual NTS Exit Flat Capacity Application Increase', 'Enduring Annual NTS Exit Flat Capacity Application Decrease' & 'Annual NTS Exit Flat Capacity Application' processes.

'Existing' Screen for Enduring Capacity Increase with the Validation Parameter as 'Capacity'

5. Change to Screen Structure - Examples

Reference Screen Pack 11.4 & 13.1

Changes made to the structure of the screens were made during analysis phase approval. Two examples of this type of change have been provided below, one where a new row has been added and an example where a column has been removed.

In the 'User Commitment Report' screen a new row was introduced to allow for better interpretation of the included screen data.

For the 'Entitlement Report – Net Firm – Long Term' screen a column (Transaction Start Period) was removed as the concept of Transaction Periods is applicable for only the 'Annual' process and this column was a duplicate of the already included Sub Transaction Period column.
