

CHANGE REQUEST CR13681 – Financial Incentive Performance Regime For Resolution of USRVs

Shipper	Name	Date	Accept /Reject	Publish	Shipper Comments	xoserve comments on behalf of Transporters
EDF	Hazel Doyle	23/12/05	Accept	Yes	It is our preference to have this change implemented on 25th March 06 as there will be an operational impact.	Accepted: First issue of these file formats will be scheduled for 25 th March.
SSE	Cher Harris	23/12/05	Accept	Yes	None	None
SCP	Mark Pitchford	23/12/05	Accept	Yes	Would have liked to have seen the invoice number and NWO short code present within the H03 record. Generally Scottish Power would like to see a consistent format for all invoice files.	It is acknowledged that this information is not in the H03 record however it is present in the H02 record.
BGT	Graham Wood	23/12/05	Accept	Yes	We do not consider this to be a Class 1 modification, as system changes will be required by ourselves in order to implement, hence a move toward the June release.	Rejected: As we transition from previous arrangements to those mandated by Modification 010 we believe we have acted reasonably in maintaining our undertaking to provided the previously prescribed three-month notice for this change, albeit that this is an amendment to ConQuest, a non-UK-Link systems that is therefore not covered by defined notice periods. Given the now revised arrangements we shall again undertake, wherever possible, to provide six-month notice for this type of change.
