GEMINI Availability (excluding scheduled outages)

GEMINI Service is a measure of overall availability to Shippers.
 GEMINI Access, Shipper Information Service, Batch Transfer, and Router availability figures relate to outages that affected 3 or more Shippers, and do not show where a service is unavailable to a shipper due to communication or other problems.
 All planned and agreed outages are excluded from the calculation of the total monthly availability figure.
 During this reporting month, the overall availability of the GEMINI Service was 100%.
