Project Nexus iGT Agency Services pre-modification consultation

5th March 2013

Project Nexus iGT Agency Services pre-modification consultation

- Xoserve issued the consultation document on 26th November 2012, with responses requested by 18th January.
- Six shippers and 4 of the 5 iGTs provided responses
- All respondents supported the iGT Agency Services initiative
- A number of respondents provided financial information for the cost benefit case.
- This information shows a positive benefits case of approximately:
 - One off circa £4m
 - Annual circa £6m

Project Nexus iGT Agency Services pre-modification consultation

- The benefits may be higher as only 6 of the 23 organisations that ship / supply to iGT networks provided a response, it has not been possible to extrapolate benefits for all shipper/supplier organisations, no benefits are included for these 17 organisations.
- All iGT responses supported the initiative but set out the case that as they are not beneficiaries of the arrangements they should be cost neutral
- Next steps:
 - Finalise the consultation report
 - Present to PNUNC for review
 - Submit to Ofgem
 - Await Ofgem view
