**Date:** 16 September 2014  
**Our reference:** Final 2014 AUGS for 2015/16

Dear Colleague

Following the approval of the proposed 2014 AUGS for 2015/16 on 2nd September, the final version of the document is now published on the Joint Office of Transporters website. As no modifications were proposed at the UNCC meeting, the document is essentially the same as the proposed AUGS published on 31st July with the version/status updated accordingly.

The AUGS is now proceeding with the generation of the interim AUG table based on the approved methodology. The interim table will be provided to the Gas Transporters and is scheduled to be published to the industry by 1 November 2014.

Sincerely  
for DNV GL

Tony Perchard  
Consultant
