Subject: DA/892/DA - Representation Pack Response (MP/891/DA)

Colleagues,

A representation pack was issued following the March 2009 UK Link Committee meeting detailing two communications, following the review cycle the responses have been collated and are detailed below:

MP/891/DA Part 01 - DM Elective Implementation Summary

Following the review cycle xoserve have received comments from one Shipper accepting the proposed file formats detailed in the UK Link Implementation Summary for the DM Elective regime **MP/891/DA - Part 01 - DM Elective Implementation Summary**. Automation of the DM Activities where possible is supported however further analysis is required to determine volume of customers that would be able to benefit from the DM Elective regime, until this analysis is completed the change can neither be supported or rejected.

MP/891/DA - Part 02 - New Rejection Reason Code for DN Interruption Auction

The new rejection code requested in **MP/891/DA - Part 02 - New Rejection Reason Code for DN Interruption Auction** was accepted by all respondents.

Regards

David Addison
