SSE Energy Supply Ltd	Cher Harris	23/02/07	Accept	YES	This will have a relatively small systems impact so adequate implementation lead time will need to be agreed by UKLink	Thank you for your response and comments.
Npower	David Mayne	22/02/07			We do not feel that a change is strictly necessary, however in light that this is an improvement to an invoice we accept Option 1.	Thank you for your response and comments.
