**Subject: EH/719/RL - UKL 13284 - Issue of Supporting documentation via IX, Communication 1 of 3**

Dear Colleague,

Changes are proposed to the way in which Adjustment backup files are processed for ADI Adhoc invoices. These changes lead to the introduction of supporting data for adjustments to be submitted via the IX.

Currently this information is sent in .csv format via email to the relevant User. In the interests of minimal impact to all parties the attached format mirrors the current information provided via email with the addition of the standard Header and footers. The revised delivery mechanism is proposed to be implemented on Saturday 29<sup>th</sup> June 2007.

Following discussions held at the UK-Link Committee meeting held on the 8<sup>th</sup> March 2007 and discussions held at the Billing Op Forum on the 7<sup>th</sup> February 2007 this note provides the further information as promised.

We send this change out for representation, in particular seeking comments regarding the potential implementation date with a reduced notice period.

Please send your representations via comments to the e-mail box account: .Box.UKLINK.Manual by the 23<sup>rd</sup> March 2007.
