Subject: EH/734/DA - Ref UKL 13819 - Previous Read Reference Number for replaced reads.- Change Implemented

Dear Colleague,

With reference to the above, I confirm that the class 1 UKLink change to allow the population of the previous read reference for replacement reads on the I27 record file was successfully implemented on Saturday 21st April 2007. After this date, all occurrences of replacement reads will have the previous read reference number populated in the I27 record file.

Should you have any questions regarding this change, please do not hesitate to contact me.
