Following on from my notice of 22 May 2007, please note that the UK Link outage planned for the weekend of the 16th and 17th June has been postponed, and will be rescheduled to a later date.

We are still planning to carry out outages on the following weekends (as outlined in my previous notice) -

- 7th and 8th July
- 21st and 22nd July

Two weeks before each of these outages we will advise you of the full details of what is happening, including–

- The exact timings of the outage
- The contingency arrangements
- And the file processing catch-up timetable
