EH/745/AS – Recovery of Late Paid Energy Balancing Invoice Interest – Implementation Notice

Colleagues,

Further to the November 2006 UK Link Committee meeting, the addition of two new charge types to the Energy Balancing (IDB) file format (CR13803) have been implemented on 29th June 2007 within the Gemini application. This notice confirms that the new charge types B44 and B45 may now be used on the Energy Balancing Invoice file format.

As such, the IDB File Format V6 Live will be made available via the UK Link Extranet site, and has been attached here for your convenience.
