**Subject: EH/747/GF - Cancelled - UK Link Outages weekend of 7th and 8th July**

**5 July 2007 - xoserve notice**

We are still planning to implement a number of amendments to the Sites and Meters part of the UK Link system this coming weekend which will help to improve system performance around this year's AQ processing.

However, following extensive testing, we are now able to implement these amendments without having an outage on UK Link. Therefore we have cancelled this weekend's planned outage.

Please note, the outage on IAD planned for this Saturday, 7<sup>th</sup> July, 10:00hrs to 16:00hrs, in order to upgrade IAD's hardware is still going ahead.
