Subject: EH/748/GF - Planned UK Link Outages weekend of 21st and 22nd  
July

## **EH/748/GF - Planned UK Link Outages weekend of 21<sup>st</sup> and 22<sup>nd</sup> July**

### **11 July 2007 - xoserve notice**

As outlined in my previous note to the industry, xoserve is planning an outage on the UK Link System over the weekend of 21<sup>st</sup> and 22<sup>nd</sup> July. Conquest will also be unavailable during this outage. The planned outage will allow us to carry out essential work in preparation for this year's AQ processing.

The outage will start at 16:00 hrs, Saturday 21<sup>st</sup> July.

The system will be available again at 07:00 hrs, Sunday 22<sup>nd</sup> July.

During the weekend you will receive your data logger information as normal.

Please Note – Gemini and IAD are available as normal over the weekend of 21<sup>st</sup> and 22<sup>nd</sup> July.

Graham Frankland  
xoserve, Customer Manager
