Change UKL13885 - Application of Interruptible Capacity Discount

Dear Colleagues

Further to communication MP/750/DJ - Application of Interruptible Capacity Discount regarding UKL13885 on 13 July 2007, Users are asked to note that this notice does not mean that the discussions surrounding the pricing proposals for "LDZ System Charges Capacity/Commodity Split and Interruptible Discounts" have been concluded.

The purpose of the communication was to clarify the UK Link Modification classification, if it is proposed to implement the change following the Distribution Networks' Pricing Consultation which is expected to be published next week.

xoserve would still request that Users provide comments on this change so that if required, it can be implemented observing the UK Link Committee notice periods.

Kind regards

Debi Jones
Projects Officer
