Distribution List Not Shown
Subject: EH/809/DA - 1.Changes to the Ad Hoc Invoicing Process for User Pays (Type I) Code Services

EH/809/DA - 1.Changes to the Ad Hoc Invoicing Process for User Pays (Type I) Code Services

With the proposed introduction of User Pays on 1st April 2008, a set of service lines will be defined as Agency User Pays Services and will be treated as Excluded Services when determining revenue through Transportation charges. As a result, where such services are described in the UNC these services will be invoiced under specific charge types using the Ad Hoc Invoicing mechanism.

The following charge types will be added to the existing ADN invoice type to provide these charges to Users. This invoice is currently used to provide the Must Reads charges on behalf of Transporters. The following charge types are proposed:

N28 Shipper Agreed Reads Credit
N29 Shipper Agreed Reads Debit
N30 User Admission Charges Credit
N31 User Admission Charges Debit
N32 Must Reads Credit
N33 Must Reads Debit

As discussed at the UKLink Committee Meeting in December 2007, this notification is provided as a courtesy notification. It is currently expected that the first invoice will be issued in May 2008.

Users are requested to note that the UNC Modification associated with User Pays has yet to be approved.

Should you have any questions or comments regarding this communication, please do not hesitate to contact me.
