Subject: EH/824/DA - UKL13861 - Rejections Associated with AQ Amendments

Dear Colleague,

EH/824/DA - UKL13861 - Rejections Associated with AQ Amendments

With reference to the above, I confirm that this change to introduce the following rejection codes successfully implemented on 01st May 2008.

STD 00216 – "End Read Date is earlier than xoserve calculated End Read Date" will be used where the meter end read used in the amendment is prior to the meter end read used

STD 00217 – "Start Read Date is not later than AQ – WC Backstop Date" will be used where the Backstop date lies within the Shipper Read Period OR where the Shipper Start Read Date is not later than or equal to the backstop date.

As previously discussed at the UKLink Committee the implementation date was scheduled within May, but first issue of the above rejection codes will be after the opening of the AQ Amendment window.

Should you have any questions regarding this change, please do not hesitate to contact me.

Regards
