Subject: EH/913/KH - COR 1360 NTS Exit Reform Requirements of Modification 195AV - Phase 1 - Representation Response

Dear Colleague,

Following closeout of formal representations on Friday 3rd July, xoserve received one representation accepting the changes proposed. Please find attached the representations matrix.

As discussed in the last UK Link Committee meeting, in order to provide Users as much notice of the changes as possible xoserve was conducting final internal reviews in parallel with the representation period. These internal reviews have highlighted some minor changes to the screens sent for representation. The revised screen pack along with a summary of the changes is available at:

<http://www.gasgovernance.com/Code/UNCCSubCommittees/UKLinkCommittee/2009Meetings/>

The majority of these changes are cosmetic changes to the screens and are categorised as follows:

Enhanced Explanations - Guidance notes to Users added at the bottom of the screen
Label Change - Amendment to text within a screen eg, column name
Dummy Data updated - Data added/updated within the screens to be more relevant
Change to Screen Structure - The movement or introduction of new columns/rows
There are a further 9 screens views that have been introduced to enable User Preferences to be set for Adhoc Increases and Decreases. As these screens have the same functionality as the screens already issued in the screen pack for representation, we will request at the UKLink Committee Meeting tomorrow (9th July) that these screens be accepted without a formal representation period.

As stated at the UKLink Committee Meeting in June, xoserve intended to seek approval of the Exit Reform changes at the July meeting, provided that there were no fundamental amendments required as a result of the representation process. Whilst it is acknowledged that the screens have changed during this period, we consider that these changes are minor and therefore will seek approval and scheduling of this change.

Should you wish to discuss the proposed approach, please contact Dave Addison on 0121 623 2741

If you have any questions concerning the solution please do not hesitate to contact the Exit Reform Phase 1 project team:

Karen Healy - Project Officer (0121 623 2751)
Matt Rider - Project Analyst (0121 623 2747)
Lee Foster - Project Manager (0121 623 2748)

Kind regards,

Karen Healy
