Distribution List Not Shown  
Subject: MB/846/RG -Cancellation of Gemini Disaster Recovery Testing -  
26/27th July

Dear Colleague,

**MB/846/RG -Cancellation of Gemini Disaster Recovery Testing - 26/27th July**

Due to infrastructure problems encountered over the last 24 hours on the Gemini production service the planned annual Disaster Recovery testing for the Gemini application is cancelled for this weekend.

As a result of the above, the Gemini application will no longer be subject to any extended outage to normal housekeeping processes.

I would like to remind you that the normal housekeeping period on Gemini is as follows;

26<sup>th</sup> July – 04:15am to 05:15am

27<sup>th</sup> July – 04:00am to 06:00am

Apologies for any inconvenience that the cancellation causes, alternative dates are being analysed and will be reported separately through the normal channels.

Regards,

Richard
