Subject: MP/879/AS - NTS Entry Capacity Invoice File Format Update for the
Enduring Transfer and Trades Project

MP/879/AS
NTS Entry Capacity Invoice File Format Update for the Enduring Transfer and Trades Project
UKL Ref: 14001

Colleagues,

Further to the email sent last Friday, please find attached a document for representation which explains the detailed changes for the Enduring Transfer and Trades project. This document details the proposed changes to the NTS Entry Capacity Invoice File Format as a consequence of the functional changes being made to the Gemini application. Please note that the NTS Entry Capacity Hierarchy document has not changed, but is attached for information.

The Shipper Facing Screens that have been amended or created as a consequence of this change will be presented Monday 20th October.

As mentioned at the UK Link Committee on 9th October, we are scheduling a Shipper trial period during April 2009, therefore, within your representation, can you please advise whether you wish to participate in this Shipper Trial. Based upon the level of responses, a decision as to the duration and content of the Shipper Trial will be communicated to those interested parties.

Please note the representation will close out for both File Formats and screens on Monday 3rd November 2008.

Regards,

Andy Simpson
