NR/1465/ZK URGENT Communication - Gemini Entry Capacity (EC) Outage 1st October 2005

Dear Colleague,

The Gemini Implementation Outage planned for 2<sup>nd</sup> October has to be rescheduled for 1<sup>st</sup> October. This outage is required to upgrade the Internal OID and Application Server and affects the current Gemini Entry Capacity (Gemini EC) Production system. The time has been rearranged as a consequence of having rescheduled Disaster Recovery Test 6, which has now been completed successfully.

The outage will be:

Saturday 1 October 2005 02:00 - 06:00

Should you have any queries regarding this, please do not hesitate to contact me.

Kind Regards,

Zena Kirk  
Communications Manager
