NR/1466/SP - The Final Delay in the Release of .MRI ,.TRF and some RGMA Files

29<sup>th</sup> September 2005

The Final Delay in the Release of \*.MRI ,\*.TRF and some RGMA Files

Dear Colleague,

The Annual AQ Review process is almost complete however this has resulted in a delay in the production of TRF/MRI/RGMA files for the 3<sup>d</sup> & 4<sup>th</sup> of October 2005. These files will now be delivered on 5<sup>th</sup> of October 2005. This is consistent with the process that we have undertaken in previous years.

To clarify, this delay will result in the delay of file generation for the following:

Meter reading / access instructions files (\*.MRI),

Supply Point ownership notification files (\*.TRF)

RGMA files (\*.JRS,\*.UPR, \*.CDR, \*.CDJ).

As with previous years I can assure you that the actual Transfer process will not be affected.

Should you require any further information or clarification with regards to the above, please do not hesitate to contact your Customer Operations Officer or your AQ Contact direct.

Kind Regards

Susan Prosser

Supply Point Operations
