NR/152/MN - POSTPONED - Planned Gemini Entry Capacity System outage contingency - 18th and 19th August

18th August 2005

Dear Colleague,

Gemini Entry Capacity system outage:

19 August 2005

02:30 - 08:30

The above outage has been cancelled. This formed part of the Disaster Recovery testing being carried out by the Gemini Project prior to implementation in October. This decision has been made following the results and learning of the outage held on 18 August 2005 02:30 - 08:30 which will be shared with shippers when the detail has been collated.

In order to satisfactorily complete the Disaster Recovery testing it will be necessary to arrange additional dates which will be requested for approval by the UK Link Committee.

Should you have any queries regarding this, please do not hesitate to contact me.

Regards

Mark Nicolson
Industry Engagement Manager - Gemini
