NR/492/NR - UKLink Docs Extranet

7th July 2005

Dear Colleague,

It has been identified when logging on the **UKLink Docs Extranet**, that a license window appears.

This window will not affect the normal access to the site. Users should select the **yes** button and continue as normal. The extranet front page will appear and the normal logging on process will resume.

We Apologies for any inconvenience caused.

Thanks

Norman Reid
