NR\493\DA - CR13168 and CR13629 Representation Response

8<sup>th</sup> July 2005

Dear Colleague,

Thank you for representations regarding UKL Changes 13168 and 13629.

Representations received for Change Request 13629 "DL1 File Format" were all favorable, so shall seek to ratify implementation at July UKLink Committee Meeting.

With reference to Change Request 13168 "Network Code Reading & Customer Transfer Programme Modifications" representations were received that challenged the solution and also requested an alternative implementation date. Please find attached representation matrix with responses on behalf of the Transporters.

As the proposed solution meets the requirements stipulated within the modification reports, and appropriate consideration has previously been given to the implementation date by UKLink Committee Meeting, I shall be seeking approval of implementation as detailed in communication "NR/486/MR - File Formats for CR13618 - For Approval" at the July Committee Meeting.

Should you have any questions regarding the matters raised in this note, please do not hesitate to contact me.

Regards

David Addison
