NR/504/DA - UKL13660 - Assessment of Industry Support for DPS File Change Class 3 UKLink Modification

14th October 2005

Dear Colleague,

Following discussion of UKL13660 - DPS File Change Class3 Modification at the October UKLink Committee Meeting, xoserve were asked to write to all industry participants to understand the level of industry support for a change to the UKLink Manual to amend the DPS file format.

As this change would amend the UKLink manual, it would require consensus from UKLink Users.

The change replaces Portfolio Effective Date with Confirmation Effective Date.

Portfolio\_Effective\_Date M D 8 0

DEFINITION:

Portfolio effective date. Format YYYYMMDD.

Confirmation\_Effective\_Date M D 8 0

DEFINITION:

Confirmation effective date. Format YYYYMMDD.

When you consider your comments with regards to the functional changes, you may wish also to further consider that since this change is raised as a Class 3 Modification, the costs of making the modification to Transporters systems are to be recovered from UKLink Users.

Your comments are invited on this change by 28th October 2005.

Regards

David Addison

xoserve Project Manager
