NR/511/NR - UKLink Documents Extranet updates

Dear Colleague,

Following adverse comments regarding The UKLink Documents Extranet site, we have carried out a review and made improvements to the layout and its file structure.

Please note: There have been no changes to any of the File Formats or any of the other documents, we have just made them easier to find.

We will be carrying out Branding updates to the UKLink Manual and UKLink Manual Supplement Documents, these changes should be completed by Mid December.

Please let me know, and forward any comments regarding the UKLink Documents Extranet Site you might have.

Regards,

Paul Crump
