Representation are invited on the changes detailed above and an implementation date of 25th March 2006

Change Request Number - 13694 - IFA Contracts

Following December's UK-Link Committee discussion I have summarised below the characteristics of this change.

The current process for agreement and renewal of IFA contracts is facilitated via faxes being passed between Users and Transmission. The possibility of LDZ price divergence and the need for greater internal controls, we intend to enhance Gemini. This enhancement will allow the publication, acceptance or rejection of new or renewed IFA agreements.

I understand that there is also a desire to understand the navigation route to these screens, which I'm happy to deliver. This will be issued under separate cover early next week.

Implementation proposed date of June 2006 release.
