NR/593/NR - CR13701 - K13 (TRF) option amendment

Dear Colleague,

You will recall following the implementation of RGMA in July 2004 it was highlighted that the K13 record needed amendment to the optionality of the Supplier Abbreviated Name. Shippers views were solicited about the appropriate fix, and the outcome communicated to all Users in NR/452/DA on 18th August 2004 (attached).

The revised K13 record was not updated on the extranet site, so please find attached the revised record that we propose to publish on the extranet and implement as a Class 1 UKLink Modification.

This matter will be discussed at the UKLink Committee meeting on 9<sup>th</sup> February 2006 to confirm that this approach is acceptable. If you are not attending this meeting, but wish to provide any comments for discussion within this meeting please feel free to contact me, or Norman Reid on 0121 713 5815, prior to Thursday's meeting.

Regards
