Dear Colleague

Following a request at the UK Link Committee meeting we have updated the UKLink Documentation extranet as shown below;

- Folder '08. RGMA' has been renamed to 'Metering Flows'.
- The sub-folders below have been renamed, to reflect the main header folder Supply Point Administration processes.

RGMA Data Sets & Response Codes renamed to Metering Data Sets & Response Codes

RGMA Metering File Formats renamed to Metering File Formats

Metering Hierarchies renamed to Metering Hierarchies

There will be movement of files generated around the Supply Point Administration processes in folder '08. Metering Flows', this is to ensure the SPA documents are sited in their correct folders. The files have been moved to: '06.UKlink (SPA and Invoicing)'. All other documents not referenced below shall remain within the '08. Metering Flows'

The following files have been moved to the SPA sections:
