NR/615/LJ - Annual Asset Portfolio (.PPN file) communication

Dear Colleague,

Following the communication provided during the last SPA Management operational forum, I can confirm that the GT Annual Asset Portfolio (.PPN file) has been planned for production 31st March 2006.

The data will then be delivered via the IX by 30th April 2006. A release schedule, detailing delivery dates will be made available in advance of issue.

Please note, last year xoserve aligned the production of this portfolio with National Grid Metering however as previously advised there is no plan, or industry requirement to repeat this synchronized approach.

I trust that this clarifies the position, however should you wish to discuss further please contact your Customer team.

Kind regards,

Lee Jackson
