NR/643/RW - RE: GEMINI EXTENDED HOUSEKEEPING 16 July 2006

Dear Colleague

There will be an extended housekeeping outage to the Gemini System on Sunday 16th July 2006. This is for essential maintenance in connection with the shipper access problems experienced at the end of April. This outage will extend housekeeping by 4 hours.

Timetable:

The Gemini System will be unavailable during the following times.

Calendar day: Sunday 16th July 2006 from 04:00 to 10:00 (6 hours).

The first WDDSEC auction to be processed at 11:00 on Sunday 16th July (including Clearing auction).

Line pack and Demand will be published on ANS during the extended outage period. The GNCC Control Room will confirm via ANS message when the system returns from outage. Contingency forms should NOT be used during the outage unless notified by the National Control Centre to do so.

If you experience any problems relating to this outage then please contact the Shipper Helpline on 08705 216121.
