Subject: NR/645/DA - Minor Amendment to CALMS System – 2 of 2.

Dear Colleague,

A minor change is proposed to the CALMS system to include an additional selection box on the "View Nominations Screen" to enable shippers to see their currently active nomination(s) rather than always viewing the full history of nominations for that Facility and Gas Day.

The following screen shots illustrate the revised screen layout.

<<CALMS CR - Active Nominations.pdf>>

At UK Link Committee it has previously been agreed that changes to non UK Link systems would be notified to Users as a courtesy notification, observing timescales equivalent to those of UKLink changes. It is considered that this is a minor change, and it is therefore proposed that this change is implemented and Users are notified after the change has been applied, commensurate with notification of a Class 1 change.

Should you wish to provide any comments on this matter, please provide these to uklink@xoserve.com no later than Friday 28th July 2006.

This communication, in addition to NR/644/NR - Gemini Maintenance Screen Amendment sent earlier, concludes the communication of changes for this month.

Regards
