

**NR652SM\_UKL13780\_IFA Supporting Data**

Shipper	Name	Date	Accept/ Reject	Publish	Shipper Comments	
Npower	David Mayne		Accept	Yes	We have no objections to this change.	
Scottish-Southern Energy	Cher Harris		Accept	Yes	We accept the change to the file however we cannot accept the proposed implementation date. This Change Request effectively introduces a new IX file, which will require us to make system changes and therefore we must insist on the full 6 months notice (i.e. February 07 release).	<p>We acknowledge your representations and confirm that any IFA supporting invoice data will be issued to Scottish and Southern Energy via email until February 2007. From February 2007 any IFA supporting invoice data will be sent via the I'X as previously discussed within the .IFA file.</p> <p>The implementation summary will not be amended as a result of your representations. It is proposed that this change will be inserted on the UKLink Implementation Plan with a November 2006 implementation date as other Users will receive the supporting data via I'X from this date.</p>
