NR/664/NP - Delay in release of all SPA files

Dear colleague,

The Annual AQ review process is currently underway which has resulted in normal production processes being temporarily placed on hold. We are now in the process of applying the revised AQ values to all of our systems.

The direct impact is that all SPA notification files which are due to be generated and issued on 22/9/06 and 25/9/06 will be slightly delayed.

As with previous years I can assure you that the actual SPA processes will **not** be affected.

There will be another slight delay at the beginning of October; I will send a second E mail confirming the details of this delay as soon as they are available.

Should you require any further information or clarification with regards to the above please do not hesitate to contact me

Regards,

Nicola Patmore

The AQ Team
