Subject: Ref : DF/696/IM xoserve: SCOGES Service - iGT Portfolio Data Available

All

I am pleased to announce that we have started to flow the iGT portfolio files into SCOGES, and iGT data is now available on IAD. Be aware that some files have experienced validation rejections so not all data may yet be available. xoserve is continuing to work with the iGTs to process further files, so all the portfolio's should be available shortly. Attached is a list of the short codes that relate to each iGT:

ADL	Independent Pipelines
GPL	GTC Pipelines Ltd
SEP	Scottish & Southern Energy Pipelines
BGC	British Gas Connections
EMP	Quadrant Pipelines
ESP	ES Pipelines Ltd
HPN	United Utilities Gas Pipeworks Ltd
ELK	United Utilities Gas Networks Ltd
GUC	Global Utility Company

Should you have any further queries with regards to SCOGES, please direct these to your operational contacts.

Thanks and Regards

Iain Monksfield
