**NR/728/DA - UKL13868 SPA File Rejection Reason Codes (class 1) change**

Dear Colleague,

It has been identified that the SPA rejection code "CNF00041" (Confirmation Number Provided) has been omitted from version 14 of the "SPA File Rejection Reason Codes" document. Find attached a revised version of the document.

Whilst undertaking this change the opportunity has been taken to revisit the document. Reference to Transco within the file format has been corrected.

This change is considered as a documentation only change, with no changes to the function of UKLink systems, and as such it is proposed that it will be implemented as a Class 1 change. The UKLink Manual updated as soon as possible after comments from Users have been received. Should you wish to provide any comments on this matter, please provide them to [uklink@xoserve.com](mailto:uklink@xoserve.com) no later than Friday 27th April 2007.
