

Uniform Network Code Committee Performance Assurance List of Assumptions

1. Introduction

The following list of working assumptions was agreed by the Performance Assurance Committee (PAC) on 14 February 2017, and any subsequent amendments shall only be made by prior approval of the committee.

2. Assumption

PAC Ref.	Assumption Description	Status	
		Approved	Awaiting Approval
1	The UK Link replacement system operates in accordance to the design specified within the BRDs (<i>Engage Report Assumption 1</i>)	PAC 14/02/17	
2	Xoserve cannot be subject to a performance assurance regime unless every action they complete is fully documented (<i>Engage Report Assumption 2</i>) <i>Should no.5 replace this existing assumption?</i>	PAC 14/02/17	
3	A high number of read submissions or AQ corrections will not impact system performance (<i>Engage Report Assumption 3</i>)	PAC 14/02/17	
4	A significant number of supply points will be elected into product 2 and 3 as a result of the mandated smart and AMR rollout (<i>Engage Report Assumption 5</i>)	PAC 14/02/17	
5	All processes associated with settlement should be documented and complied with by all parties		PAC 14/03/17
