Impacts of Project Nexus Implementation Date to AQ17

Distribution Workgroup - 27th October 2016

- Questions have been raised regarding the treatment in 2017 with respect to the Annual AQ Review
 - Many AQ obligations exist in UNC
 - Principle is that the AQ Review activities will continue, shadowing the UNC obligations until these will be stopped due to Project Nexus Transition or Implementation
 - AQ process fundamentally changes post PNID so existing UNC obligations fall away
