Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

RWE npower supports this Modification. We consider that the provision of data by the iGTs is a key deliverable to enable the implementation of UK Link changes in line with UNC Modification 440.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

No.

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

Implementation of this modification would facilitate Relevant Objective (d) Securing of Effective Competition as it will help pave the way for the delivery of Project Nexus and the benefits that will bring to customers and industry parties.

Impacts and Costs:

What analysis, development and ongoing costs would you face if this modification were implemented?

We have not identified any costs over and above those outlined in the modification. Some additional costs may arise depending whether there is any requirement for shippers/suppliers to validate the data provided.

Implementation:

What lead-time would you wish to see prior to this modification being implemented, and why?

In order to achieve the first proposed submission of data on or before 15th January 2015, an early implementation of this Modification would be helpful. This would enable the iGTs data
