#### Do you support or oppose implementation?

Support

#### Please summarise (in one paragraph) the key reason(s) for your support/opposition.

We support this modification as it carries on an existing service post Nexus implementation and it prevents the transition of Daily Metered Voluntary (DMV) sites into Nexus Class 2 sites being a cutover issue, allowing this process to be managed in a timely manner and giving Shippers time post Nexus to bring in the Class 2 processes. Also, it takes away the issue that DMV sites will have to go into Class 4 at cutover and effectively be non daily metered sites for a short period of time until they can be reclassified as Class 2 sites.

#### Are there any new or additional issues that you believe should be recorded in the Modification Report?

No.

#### Relevant Objectives:

*How would implementation of this modification impact the relevant objectives?*

We agree with the proposer that it would positively impact relevant objective (f).

#### Impacts and Costs:

*What analysis, development and ongoing costs would you face if this modification were implemented?*

None identified.

#### Implementation:

*What lead-time would you wish to see prior to this modification being implemented, and why?*
