<b>Date of Representation:</b>	22 <sup>nd</sup> June 2015
<b>Support or oppose implementation?</b>	Support
<b>Relevant Objective:</b>	<b>d)</b> Positive <b>f)</b> Positive

**Reason for support/opposition:** Please summarise (in one paragraph) the key reason(s)

npower are supportive of this modification as it seeks to introduce a report which will be issued to all Shippers, with regards to which Supply Meter Points have been removed. The change will allow the Shipper to review the report of meter points that have been removed and correct any false notifications that the report may contain. It also allows the shipper the opportunity to carry out internal data checks to ensure they are content with the information held within the report and if there are any errors to resolve the discrepancies. It will help improve data quality issues for npower and for all industry parties, which in turn should reduce industry costs and as such npower should support this change.

**Self-Governance Statement:** *Please provide your views on the self-governance statement.*

This change should not have any material impact on competition and consumers, therefore supports the self-governance criteria

**Implementation:** *What lead-time do you wish to see prior to implementation and why?*

Once Xoserve system change requirements have been completed that are required in order to generate this report, the change should be implemented.

**Impacts and Costs:** *What analysis, development and ongoing costs would you face?*

None

**Legal Text:** *Are you satisfied that the legal text will deliver the intent of the Solution?*

Npower are satisfied with the legal text

**Are there any errors or omissions in this Modification Report that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

None

**Please provide below any additional analysis or information to support your representation**

N/A
