Support or oppose implementation?	Support
Relevant Objective:	d) Positive f) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

The modification provides for suitable transition rules to facilitate individual meter point reconciliation where historically meter readings have either not been provided or haven't been accepted for settlement purposes.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

This would need to be implemented in advance of Project Nexus Go Live to ensure suitable transition reads were estimated as necessary.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

Specific costs and impacts have not been assessed separately for this modification outside of the Nexus Project.

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

No

Please provide below any additional analysis or information to support your representation
