Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

This modification is required to support the implementation of the Project Nexus arrangements , by ensuring there are clear transition rules.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

It is important to have certainty on the transition rules for Nexus as early as possible, and therefore we would support an implementation date as early as is possible.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

No costs/impacts have been determined separately for this element of Project Nexus delivery.

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

None

Please provide below any additional analysis or information to support your representation
