**Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)**

The Theft Risk Assessment Service (TRAS) is funding an Energy Theft Tip-Off Service (ETTOS) to manage tip-offs for energy theft across the industry.

As part of the ETTOS development it has been identified that Transporters, via Xoserve, will need to provide the Supplier identity to the ETTOS Service Provider to ensure they can properly match tip-offs with the responsible party.

This Modification Proposal will provide the Transporter with the necessary permissions to provide the Supplier identity of a supply point to the ETTOS Service Provider on receipt of a tip-off.

The permission in this proposal will only be used when there is a specific allegation of theft of gas. The data provided will be of the Supplier identity only for the supply point identified in the tip-off and no bulk data provision will be utilised.
