<b>Representative:</b>	Mark Jones
<b>Organisation:</b>	SSE Supply
<b>Date of Representation:</b>	07 July 2016
<b>Support or oppose implementation?</b>	Support
<b>Relevant Objective:</b>	<b>d) (i)</b> Positive <b>d) (ii)</b> Positive <b>f)</b> Positive

#### Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

Changes to SPAA have introduced the ETTOS, but in order for the service to be as effective as possible Users must provide permission for the identity of the Supplier of a Supply Meter Point to be made available to the ETTOS Provider. This modification proposal will create the permissions within the UNC to permit the release of this data to the ETTOS Provider when they receive a tip-off of a potential theft of gas. This will enable the ETTOS Provider to provide the relevant Supplier with the tip-off information so that the Supplier can follow up as required, and so this modification will improve the theft of gas investigative process.

#### Self-Governance Statement: Please provide your views on the self-governance statement.

SSE agrees that this modification meets the self-governance criteria.

#### Implementation: What lead-time do you wish to see prior to implementation and why?

This modification should be implemented as soon as possible and in line with the timescales for self-governance criteria.

#### Impacts and Costs: What analysis, development and ongoing costs would you face?

None identified.

**Legal Text:** *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes.

**Are there any errors or omissions in this Modification Report that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

No.

**Please provide below any additional analysis or information to support your representation**
