Support or oppose implementation?	Support
Relevant Objective:	f) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

WWU supports this Modification because it is required to ensure that following the implementation of Modification 0573, which postponed the retrospective elements of Modification 0434, there are appropriate transitional provisions within the UNC to facilitate an orderly progression from the existing UNC provisions to those implemented under Modification 0434.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

As soon as possible following an Authority decision but in any case before the end of August as this will provide certainty to the transition process.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

None to WWU.

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

No.

Please provide below any additional analysis or information to support your representation
