

Representation - Draft Modification Report 0578
Implementation of Retrospective Invoice Adjustment arrangements
(Project Nexus transitional modification)

Responses invited by: 5pm 07 July 2016

To: enquiries@gasgovernance.co.uk

Date of Representation:	6 July 2016
Support or oppose implementation?	Support
Relevant Objective:	f) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We support implementation of this modification proposal. Whilst it is disappointing that not all Retrospective Adjustment functionality will be deployed at the Nexus implementation date, the introduction of Retrospective Adjustments regarding submitted reads is a positive step. We will look forward to provision of the remaining functionality at the earliest opportunity, together with other outstanding requirements, captured in the Requirement Log, that have been identified within the Project Nexus UNC Workgroup.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

We support implementation at the earliest opportunity, enabling clarity within transitional arrangements.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

The delay of the retrospective adjustment elements of Project Nexus increases delivery costs to shippers and end consumers.

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

None

Please provide below any additional analysis or information to support your representation

None
