Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

Automation of this process will deliver a greater level of efficiency which will be of benefit to both achieving the smooth transition to smart metering and faster correction of data resulting in more accurate allocation of costs to industry participants.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

No.

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

We agree that implementation would be likely to facilitate relevant objectives d) i) and ii) securing of effective competition between shippers and suppliers and relevant objective f) promotion of efficiency in the implementation and administration of the code.

Impacts and Costs:

What analysis, development and ongoing costs would you face if this modification were implemented?

As with other Nexus proposals, although some costs are envisaged around changes to internal systems and process, we feel that the benefit resulting from implementation will significantly outweigh the associated costs.

Implementation:

What lead-time would you wish to see prior to this modification being implemented, and why?

We support the proposed implementation date of 1 October 2015.
