TPD SECTION H - POST-NEXUS VERSION

For the purposes of Modification 0604 we set out below the steps followed to create a new version of TPD Section H which reflects the core Project Nexus changes under Modifications 0432 and 0440 and which will replace the existing TPD Section H:

- **Step 1:** As the base document (**Base Document**) we used a "clean" version of the document published on the Joint Office of Gas Transporters' (**JO**) website for Modification 0440 entitled "**21 February 2014 TPD Section H (base 0432 redlined to include 0440 text)**". This document, in addition to showing the amendments made by Modification 0440, also showed the amendments made by Modifications 0428 and 0432 (to the extent that Modification 0440 did not amend, delete or replace such amendments).
- **Step 2:** We updated the Base Document to include amendments made by modifications implemented between the publication of version 4.26 of TPD Section H (this version formed the base document for the legal text for Modification 0440) and the publication of version 4.90 of TPD Section H (i.e. the current version of TPD Section H published by the JO) (**Non-Nexus Modification**). The Non-Nexus Modifications are identified in the table below. In some cases text introduced by a Non-Nexus Modification has been, or will be, amended, deleted or replaced either by (i) a different Non-Nexus Modification with a later implementation date, or (ii) amendments resulting from modifications which will be implemented on the Project Nexus Implementation Date (**PNID**).
- **Step 3:** We checked to see if there were any Non-Nexus Modifications impacting on TPD Section H which have been approved by Ofgem which have an implementation date prior to PNID; as at ** there appear to be no such modifications.
- **Step 4:** We updated the Base Document to include amendments made by modifications impacting on TPD Section H which have been approved by Ofgem and which have an implementation date of PNID (**PNID Modification**).
- **Step 5:** We updated the Base Document to include amendments made to TPD Section H by Modification 0565 (to the extent that such amendments remained applicable to the post-Nexus text).
- **Step 6:** We updated the Base Document to ensure new text introduced under a PNID Modification was consistent with the drafting approach under Modification 0565 (e.g. including references to the CDSP if appropriate).

We have produced a mark-up which shows the changes made to the Base Document, and which therefore shows changes made by Modification 0565 (to the extent that such changes remain applicable to the post-Nexus text) and Modification 0604, as well as changes made under a Non-Nexus Modification or a PNID Modification.

To the extent further changes are necessary as part of the Project Nexus 'sweep up' modification we will be able to show these as changes against this new clean version of TPD Section H.

Modifications which have amended/will amend TPD H since v4.26 (on which our post-Nexus FGO text was based)			
Modification	Implementation Date	UNC version #	Impact on TPD Section H
0461 (Changing the UNC Gas Day to Align with the Gas Day in EU Network Codes)	1 October 2015	4.72	Amendment to change the UNC Gas Day to align with the Gas Day in EU Network Codes.
0489 (EU Gas Balancing Code - Information Provision changes required to align the UNC with the EU Code)	1 October 2015	4.72	Amendments in relation to changes to the provision of information.
0589S (Inclusion of CSEP Supply Meter Points within NDM Sampling Arrangements)	PNID	N/a	Amendment in relation to the inclusion of CSEP Supply Meter Points within NDM Sampling Arrangements.
